DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 6-17 are now cancelled based on the non-elected without traverse dated 9/28/2004.

Response to Argument

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

3. The applicant's argument that DuPre' et al. in view of Greenwood et al. are silent with respect to a capacitor having a plurality of terminals, wherein multiple first polarity connections are coupled to a single first polarity terminal and corresponding multiple second polarity connections are coupled to multiple second polarity terminal. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.

Allowable Subject Matter

4. Claims 1-5, and 18-21 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-5, and 18-21, the prior art alone or in combination does not teach the limitation of a capacitor comprising a capacitor having a plurality of terminals, wherein multiple first polarity connections are coupled to a single first polarity terminal and corresponding multiple second polarity connections are coupled to multiple second polarity terminal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation Relevant of Prior Art

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- a. Murakami et al. (US 6,795,295) disclose multi-layer capacitor and method for producing the same.
- b. Naito et al. (US 6,606,237) disclose multilayer capacitor wiring board, decoupling circuit, and high frequency circuit incorporating the same.
- c. Kuroda et al. (US 6,594,136) disclose multi-layer capacitor wiring board, and high frequency circuit.
- d. Naito et al. (US 6,549,395) disclose multilayer capacitor.
- e. Takeshima et al. (US 6,462,933) disclose thin film multilayer capacitor and mounting method therefor.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nguyen T. Ha whose telephone number is 571-272-1974. The examiner can normally be reached on Monday-Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-2800 ext. 31. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
